

NetGain Motors, Inc.

800 South State Street / Suite 4 / Lockport, IL 60441 / 630-243-9100 / 630-685-4054 (FAX)

Introduction

With a strong desire for new technology and the advancement of electric and hybrid vehicles, NetGain Motors, Inc. has been a preferred supplier of specialty, series wound DC motors for EV's since 1998. NetGain Motors, Inc. has worked to develop a comprehensive line of DC electric motors specifically designed for the unusual operational dynamics of an electric vehicle. The outcome has been the very successful line of **WarP™ Motors**, **Impulse™ Motors**, and **TransWarP™ Motors**. We currently offer **WarP™ Motors** in 7", 8", 9", 11" and 13" diameters, plus the 9" diameter **Impulse™ Motor**, and our unique **TransWarP™ Motors** in 7" 9" and 11" diameters.

The focus of NetGain Motors, Inc. is to continuously supply our Authorized Motor Dealers with the best EV motor for their customers. Even though our motor performance record is outstanding, we are always looking to improve our motors performance and capabilities. We are constantly looking for ways to improve our motors and introduce new motors based on dealer and customer feedback.

This **Authorized Motor Dealer Manual** will provide you important marketing and technical information – pictures, pricing, & performance data.

Please look at our ***Advertising Rebate Program*** and utilize it with our promotional item line. We can provide motor sales sheets for your customers, an efficient way to pitch essential information. These sheets can be customized to include your company name, address, and logo. We will even print and send them to you upon request!

Please let us know of any enhancements you would like to see included in future versions of this **Authorized Motor Dealer Manual**.
